

I would ask that the FCC not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Have been on no call list for 8 months now, and it has made a big difference on my familys quality of life. We are longer subjected to unwanted phone calls at all hours of the day and night. No more high pressure calls about life insurance, credit card, home finance, light bulb sales, or hundreds of other things we'd get call over. If I want their service, I'll call them. If you really want to good some good, do something about unwanted junk e-mail and spam. Its almost as bad as unwanted phone call in the middle of the night.

Thank You for your time
David A. Joachim Sr.
